DIRECTORY OF RECOGNIZED SUBJECT AREA

(By SDO and Alphabetic Sequence)

PREFACE

This document specifies which accredited Standards Development Organization (SDO) is recognized as having primary responsibility for each of the subject areas listed. These have been determined in accordance with Council document CAN-P-1006, "Recognition of Primary Responsibility for Subject Areas -Procedures".

Users are cautioned that not all areas of SDO activities or expertise are referenced in this document.

In the preparation of National Standards of Canada (NSCs) there may be aspects of overlap between subject areas of accredited SDOs. In such cases SDOs with primary interest will consult with other SDOs as appropriate.

The subject areas and recognized primary responsibilities were comprehensive as of publication date. The document will be revised as required.

Recommendations for amendment, clarification, or requests for additional copies of this document should be addressed to the Standards Council of Canada, 270 Albert Street, Suite 200, Ottawa, Ontario K1P 6N7.
